PROFILE

I am a student IT with a proven track record in designing websites, development website by PHP language and used Laravel framework for web application development. I have technical skills as well as teamwork skills, enabling me to interact with a wide range of members in the group. I am eager to be challenged in order to grow and further improve my IT skills. My greatest passion is in life is using my technical know-how to benefit other people and organisations.

OBJECTIVE

Short Objective: Take advantages of IT skills & experience at school and understanding of programming language and soft skills to development and bring a lot value to myself as so as the company. From that, I will contribute to development of the company and improve myself.

Long Objective: From my previous experience, I will develop mobile ecommerce applications, at the same time study Flutter language.

EXPERIENCES

FRONTEND // DO IT YOURSELF

- This website describes as a store with equipment on bicycles.

Link to my project: <https://bikesshop.000webhostapp.com/>
